Miniature Delta Ribbon

Mini D Ribbon (MDR) Connectors

The MDR connector system features high density shielded I/O connectors with a broad range of boardmount, wiremount and cabling components in sizes ranging from 14 -50 positions. The MDR connectors are a reliable system for repetitive plugging and unplugging in I/O applications such as the IEEE 1284 interface. This system also features excellent electrical performance in high data rate, low voltage and differential signal transmission application such as high-speed digital video interconnects for desktop LCDs.

411220

Solder Plug Connector - Shielded

- Wiper-on-wiper contact for reliable repetitive plugging
- Solder cup termination requires no special tooling
- Accepts a wide variety of discrete wire (24 to 30 AWG) cable construction

The very latest NEW products

Wiremount Plug - Shielded

- Wiper-on-wiper contact for reliable repetitive plugging
- MDR digital LCD interface as a 20 or 26 contact connector
- IEEE 1284C Interface as a 36 contact connector
- Accepts a wide variety of cable constructions including flat, round, twisted pair and twinax cables

Right Angle Receptacle - Shielded

- Wiper-on-wiper contact for reliable repetitive plugging
- Ultra-low signal skew for high data rate transmission
- Suitable for MDR digital LCD interface connectors

Right Angled Receptacle

- Wiper-on-wiper contact for reliable repetitive plugging
- SMT compatible PCT insulator material
- Ground lock PCB retention - 55G3PL
- Screw lock retention - 5212PL
- Interface latch design for connection stability
- Glass reinforced polyester
- UL 94V-0
- MDR digital LCD interface as a 20 or 26 contact connector
