

eDmod300

- Motherboard using industry standard pin-out to plug directly onto your existing board design
- Ready to use for a quick time to market
- CMOS 3V3 serial port , 230.4 Kbps

NEW

- Available in 5 versions:
 - eDmod101T: SocketModule for PSTN (analog telephone network) V32Bis (14.4K)
 - eDmod102T: SocketModule for PSTN (analog telephone network) V34 (33.6K)
 - eDmod103T: SocketModule for PSTN (analog telephone network) V90 (56K)
 - eDmod200T: SocketModule for Local Area Network - 10baseT
 - eDmod302T: SocketModule for GSM/GPRS (900/ 1800 MHz Europe) Class 2/Class10

Mftrs. List No.	Order Code	Price Each
