

High Performance – 2402

- High performance, two part rubber adhesive
- Good water and heat resistance
- Ideal for bonding inflatable craft and wet suits etc.

Warning:- Flammable contents, do not use near any source of ignition, use in a well ventilated area

● Please check with Sales Office for availability

Fast-Tak Contact

- Fast bonding aerosol contact adhesive
- Excellent final bond strength
- Suitable for a wide range of substrates

Warning:- Flammable contents, do not use near any source of ignition, use in a well ventilated area

● Please check with Sales Office for availability

Fast-Tak Multi-Purpose

- Multi-purpose industrial grade aerosol adhesive
- Fast setting
- Excellent initial grab
- Suitable for both temporary and permanent bonds

Warning:- Flammable contents, do not use near any source of ignition, use in a well ventilated area

Hot Melt Adhesives

Glue Guns

- Conform with latest European Electrical Safety Standards
- Operates from 110/230V ac mains supply (self adjusting)

TEC200 – Lightweight

- 8 minutes warm up time
- Output of up to 750g/hr
- Uses 12mm glue sticks
- Molten glue output controlled by positive easy-pull trigger

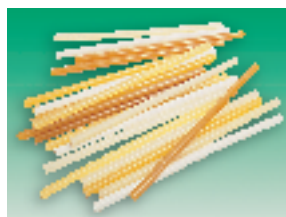

TEC 700 – High Output

- Robust professional glue gun
- 5 minutes warm up time
- Adhesive flow controlled by regulating trigger pressure
- Output of up to 2kg/hr
- Uses 12mm glue sticks
- Supplied with plug-in stand

TEC 700				

Glue Sticks

- Non-toxic and solvent free
- Economic and simple to use
- Suitable for wide range of substrates

- TEC-BOND 23**
 - General purpose with medium open time (up to 40 secs.)
 - Ideal for bonding wood, fabric, ceramics, leather and some plastics
- TEC-BOND 260**
 - High performance grade adhesive with long open time (up to 60 secs.)
 - Ideal for plastics, glass, ceramics and thin gauge metals
 - Not suitable for use in the TEC200 applicator
- TEC-BOND 240**
 - Clear high performance grade with medium open time (up to 40 secs.)
 - Suitable for most plastics, foam, ceramics and light gauge metals

Weight per bag 1kg
Approx. No. 34 sticks (12 300mm)

STEINEL
Technik mit Ideen

- Hot melt adhesive applicator suitable for industrial applications
- Bonds materials of all kinds, porous or non-porous, quickly and efficiently
- Adhesive sets in seconds
- Mains operated
- Double insulated
- Trigger to expel molten glue
- Silicone coating on non-drip nozzle for protection against burning
- Supplied with 3 200mm adhesive sticks, also available separately
- Fitted with a UK plug

Operating voltage 100 to 240V ac
Output 20 to 45 W (200W in heat-up mode)
Melting temperature 206°C

Heat-up time 7 mins.
Uses 11mm dia. adhesive sticks

Metalworking Repair & Filling

Quick Metal 660

LOCTITE

- High strength anaerobic paste
- Cures into a tough plastic which can withstand temperatures up to 150°C
- Resists solvents and lubricants
- Removes backlash, eliminates fretting wear on splines and key-ways
