Cutters & Pliers

Lindstrom RX Series Lindstrom

- Ergonomically designed electronic cutters and pliers to reduce stress and strain to operators hands
- Easy to handle and are adaptable to both large and small hands
- Handle length is adapted to provide complete support to the hand and eliminate point loading
- Unique return spring joint means less strength is needed the more the cutters are pressed together
- Spring is adjustable upto 3 positions to set tension to suit individual operators
- High precision cutting edges offer long working life
- Conductive and static dissipative hand grips
- Screw and lap joint construction
- ESD safe
