

Wire Strippers — continued

Heavy-duty Wire Stripper

DURATOOL

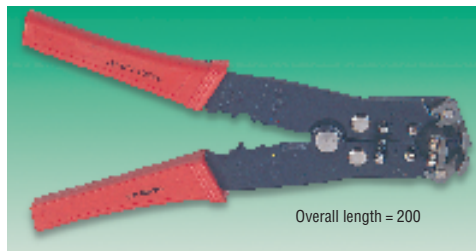

New

- Automatic wire stripper with a capacity from 0.13mm² to 6.0mm², 10-22 AWG
- Incorporates a wire cutter and crimping facility for insulated and non-insulated terminals including auto ignition terminals

Self Adjusting

ELLIOT LUCAS

Best Value

A simple to use and reliable self-adjusting wire stripper with a capacity from 0.13mm² to 6mm². The tool also incorporates a wire cutter and crimping facility for insulated and non-insulated terminals.

Self-adjusting Stripper and Cutter

DURATOOL

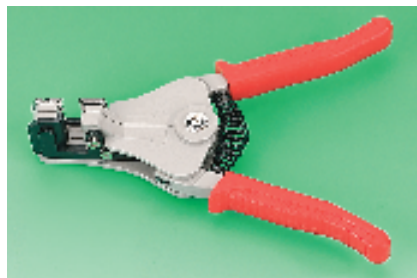

New

- Self-adjusting wire stripper for 0.2mm to 6mm wire
- Features an adjustable stop and dial adjustment for blade pressure to reflect the length and thickness of insulation being stripped
- Also features a cable cutter
- Length stop scale in mm and inches

1.0-3.2mm	312-5592			
8-22 AWG	312-5609			

Stripmaster

- Stripmasters give quick, clean, repeatable insulation strips for a wide range of wire
- Clean and complete removal of insulation without damaging the conductors

Stripmaster - Strips most common plastic and rubber insulations.

Stripmaster Lite - 1/3 of the operating force of the other tools, lighter and smaller, for common plastics and rubber.

Custom Stripmaster - Unique blade design with counterbored recesses sized to the insulator and inner stripping hole sized to the conductor preventing blade touching the conductor. In certain military and high reliability applications the integrity of the conductors is mandatory.

Wire Stop - Is an accessory that fits all tools and gives repeatable strip lengths.
