## Xcelite Series 99

Interchangeable blades, shanks and handles are all available separately, allowing gradual economical accumulation of whatever items might be needed for your individual requirements. This also permits owners of Series 99 sets or kits to enlarge them or substitute tools, as necessary at minimal cost.

Blades are high carbon steel with highly polished nickel chrome finish except Bristol and Allen hex types which are precision formed, cold drawn, case hardened steel. Plastic handles have a patent spring device that holds blades firmly yet permits quick, easy insertion and removal.

### Handles

TEE212X

Mftrs. List No.	Order Code	1+	4+	20+
Fixed straight handle	99-1V	441-521		
Fixed tee handle	99-4V	441-533
