

## Large Capacity Ratchet Pipe Cutter

- Die-cast aluminium alloy body with a razor sharp stainless steel blade
- Maximum cutting capacity – 63mm
- Suitable for cutting PVC pipe, rubber and plastic hose, pneumatic hose, electrical sleeving, etc.

## Pipe/Conduit Cutter

- Strong but lightweight ABS plastic body with comfortable handle design
- Razor sharp stainless steel blades for effortless straight cuts suitable for, new water main plastic pipes, rubber and plastic hose, pneumatic hose, electrical sleeving etc.

TEE314

## PVC Tube Cutter

H = 160  
W = 185  
D = 30

- Designed to cut PVC conduit up to 32mm diameter
- The pointed blade eliminates deformation of the tube. There are no burrs or swarf to interfere with joining
- Also cuts a wide range of other materials such as nylon tubes, air line, rubber tubing, rubber profiles, hose pipe etc.
- It also copes with all fine stranded conductors cable from 5mm to 15mm diameter

479-421				

## Multi Function Cutter

- Heavy-duty, forged steel blade cutter, with 5 interchangeable anvils
- Flat, Double Radius, Single Radius, Right Angle and Mitre anvils, easily changed with the Hex key provided
- Suitable for cutting hose, PVC pipe, mouldings, trim, etc.

## Compact and Standard

- Compact and accurate cutters
- Steel wheels and rollers in precision die-cast bodies
- 200-22 capacity: 3-22mm copper, aluminium and brass tube
- 200-30C capacity: 3-30mm copper, brass, aluminium and thin-walled steel
- 200-45 capacity: 15-45mm plastic pipe

200-45	715-0866			

## Pipe Cutter and Deburring Tool

- Adjustable pipe cutter with die cast, black lacquered body, hardened steel wheel and two flare groove rollers, with burr remover in end piece
- For copper, brass, aluminium and thin walled steel pipes

		1+	5+	10+	25+	50+
3-30mm (1/8"-1 1/8")	725-4271					

## Roller Pipe Cutter

Pipe Capacity  
Nom. Bore O/D Weight  
1/8"-2" 10-60 3.2 kg

- Designed to cut steel pipe
- Fast cutting wheel and two wide rollers
- Rollers keep the cutter squarely on track
- Leaves smooth, clean, cut ready for jointing or threading

## Tube and Pipe Benders

### Tube Benders

- Ideal for air condition, refrigeration and central heating engineers
- Each tool will bend three sizes of steel, aluminium, copper or brass tube
- 210 – Calibrated for 90° bends in annealed copper, steel, aluminium and stainless steel
- Bending capacity: 3, 4, 6mm (1/8", 3/16", 1/4")
- 211 – Ideal for 'microbor' central heating systems
- Calibrated for left-hand, right-hand or offset bends in copper, brass, aluminium or steel
- Bending capacity: 6, 8, 10mm (1/4", 5/16", 3/8")
