

Vices — continued

Inspection Vices
V-groove

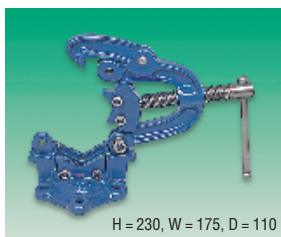

- Toolmakers and inspection vice
- Base and front jaw are one-piece all-steel construction
- Hardened and precision ground
- The 7-270 series has V-grooved jaws for bar holding

Hinged Pipe and Bar Vice

H = 230, W = 175, D = 110

- Hinged frame allows the workpiece to be easily placed-in or removed
- Ideal for fast repetitive work cutting or threading pipes or round bar stock
- Can accommodate sizes from 10 to 30mm diameter

Clamps

Flex-Jaw Spring Clamp

DURATOOL

- Reinforced nylon grips, extra strong spring and swivelling jaws
- For general purpose clamping

TEE354

	Order Code	Price Each		
		1+	5+	10+
100/4" (35mm jaw capacity)	312-7904			
160/6" (60mm jaw capacity)	312-7916			
225/9" (80mm jaw capacity)	312-7928			

Toolmakers Parallel Clamps

- Jaws are case hardened for optimum strength and wear resistance
- Knurled screw heads have cross holes for use with tommy bar for secure tightening
- Equipped with a spring clip located in a retaining groove on the screw head

Size	Order Code	1+	10+	50+

3 1/2" 5"	725-5391			

MAT138

Speed Clamp

- One-hand quick clamp
- Ideal for any number of tasks
- 150mm capacity, throat 75mm

Quick Change Quick-Grip

- Quick change system - converts from a clamp to a spreader in seconds
- No tools are required to convert from a clamp to a spreader
- High tech resin body - delivers a durable long lasting product
- Stronger than steel
- Removable/interchangeable soft pads prevent damage to the work piece
- Single handed operation
- Ergonomically designed pistol grip handle

102mm 'G' clamp	1194	.458-650			

G-Clamp Heavy Duty

- Heavy-duty engineers' G-clamps
- Manufactured from drop-forged steel
- Flame-proof load of up to 15000 lbs. (6800kg)
- Ideal for metalworking and fabrication work
